

# Wetzel County Action Group (WCAG)

**Mission.** The Wetzel County Action Group will support economic development for the county and state; and work to insure that economic development does not negatively impact the safety, economic interests, and quality of life of the Citizens of Wetzel County.

AIR

We must protect our  
AIR—WATER--- LAND

WATER

While Looking  
for Balance  
in our Quest  
for Energy

LAND

The Next 3 slides show some examples combining map and data base information onto Google Earth background to share with various regulatory agencies.

This map was assembled recently using Google Earth, County Highway map details, topographic maps, and sent to WVDOH on damaged roads

This map was assembled using Google Earth, topographic maps, well plats, OOG Database info and sent to WVDEP and to others concerning water withdrawal from stream and truck traffic in stream bed.

# Combining map info

This map was assembled this week using new legal ad, tax maps  
Topographic maps, and sent to our county flood plain coordinator

# Marcellus Well Pads in Wetzel & South Marshall, WV

Over 300 wells on more than 100 well pads as March 15, 2013

# Typical Sequence for Marcellus Shale Gas Operations

<b>PRODUCTION STAGES</b>	<b>TYPICAL PROBLEMS EXPERIENCED BY THE COMMUNITY</b>		
	<b>LAND-TRAVEL-TRAFFIC</b>	<b>WATER ISSUES</b>	<b>AIR POLLUTION</b>
<p>1. Site preparation: clearing, road, grading, gravel, drainage</p> <p>2. Drill rig move, set up; Drilling operations; remove rig</p> <p>3. Hydraulic fracturing; sand kings, frac pumps, sand cans</p> <p>4. Completions; condensate and brine tanks;</p> <p>5. Gas processing on well pads</p> <p>6. Pipelines and Compressor</p> <p>7. Compressors, Dehydration &amp; Gas Processing Plants</p>	<ul style="list-style-type: none"> <li>• Damaged roads</li> <li>• Dusty or muddy roads</li> <li>• Broken elec. &amp; phone lines</li> <li>• Blocked roads &amp; delays due to truck accidents</li> <li>• Dangerous big trucks</li> <li>• Escorts left of center</li> <li>• Guard rails damaged</li> <li>• Signs &amp; bridges damaged</li> <li>• Large truck caravans</li> <li>• Being run off roads by large trucks running left of center</li> <li>• Decreased property values</li> <li>• Permanent loss of pasture, timber and farm land</li> <li>• Increased demand on all Emergency services</li> <li>• Habitat fracturing by pipelines RoWs.</li> </ul>	<ul style="list-style-type: none"> <li>• Muddy streams from gas operation runoff.</li> <li>• Spilled drill brine fluids</li> <li>• Streams and rivers contaminated with drill waste</li> <li>• Erosion &amp; sedimentation of streams</li> <li>• Slips from ponds, well pads and pipelines.</li> <li>• Contaminated springs</li> <li>• Spilled and dumped drill mud or cuttings</li> <li>• Large consumption of fresh water sources and disposal problems</li> </ul>	<ul style="list-style-type: none"> <li>• Diesel fumes</li> <li>• Silica dust</li> <li>• Large releases of raw gas</li> <li>• Large scale burning of brush</li> <li>• Cinder dust on roads</li> <li>• Dusty roads</li> <li>• Fugitive gas emissions</li> <li>• Rock dust from drilling</li> <li>• Condensate tank fumes</li> <li>• Fumes from flaring</li> <li>• Ozone formation</li> <li>• Compressor station fumes</li> <li>• Pipeline discharges</li> <li>• Light pollution</li> <li>• Noise pollution</li> </ul> <p>Bill Hughes Wetzel County Action Group 6-2013</p>

# Typical Production Sequence for Marcellus Shale Gas Operations

1. Site preparation: clearing, road, grading, gravel, drainage
2. Drill rig move, set up; Drilling operations; remove rig
3. Hydraulic fracturing; sand kings, frac pumps, sand cans
4. Completions; condensate and brine tanks;
5. Gas processing on well pads
6. Pipelines and Compressor
7. Compressors and Gas Processing Plants

**WHAT WE CAN AND WILL DO BEFORE STEP ONE**

# Well Watcher Preparation Core Curriculum

## Required Ingredients

1. Newspaper---get subscription; study legal ads-wells & air
2. Using Google Earth; mark all well pads & compressors site.
3. Set up Separate Folders for each operator using unique icons.  
In properties insert API numbers
4. Topographic maps (Order or online)
5. Tax maps, court house \$ \$ find owners of record near WELL
6. Highway maps enlarge, mark well pads
7. Order Well Work Applications with Well plats, and much more.
8. Permission to be on property (copy to sheriff if needed)
- 9. Combine all above ingredients on low heat, stir, and study and share with neighbors---Repeat---**

# SAMPLE LEGAL ADS REQUIRED FOR WELL WORK APPLICATIONS

### Legal Notices

WW-PN  
(5-04-2012)

Horizontal Natural Gas Well Work Permit Application Notice By Publication

**Notice is hereby given:** Pursuant to West Virginia Code 22-6A-10(e) prior to filing an application for a permit for a horizontal well the applicant shall publish in the county in which the well is located or is proposed to be located a Class II legal advertisement.

**Paper:** Wetzel Chronicle  
**Public Notice Date:** 4/10/13 4/17/13

The following applicant intends to apply for a horizontal natural well work permit which disturbs three acres or more of surface excluding pipelines, gathering lines and roads or utilizes more than two hundred ten thousand gallons of water in any thirty day period

**Applicant:** EQT Production Company  
**Well Number:** 513982  
**Address:** 115 Professional Place Bridgeport, WV 26330

**Business Conducted:** Natural gas production

**Location -** State: West Virginia  
**County:** Wetzel  
**District:** Grant  
**Quadrangle:** Pine Grove  
**UTM Coordinate NAD83** Northing: 4,379,597.00  
**UTM coordinate NAD83** Easting: 532,086.00  
**Watershed:** Upper Run

**Coordinate Conversion:** To convert the coordinates above into longitude and latitude, visit: [http://tagis.dep.wv.gov/convert/lutm\\_conus.php](http://tagis.dep.wv.gov/convert/lutm_conus.php)

**Electronic notification:** To receive an email when applications have been received or issued by the Office of Oil and Gas, visit <http://www.dep.wv.gov/in-siddep/Pages/DEPMailinLists.aspx> to sign up.

NOTES:

# Property Access Permission Form

## TO WHOM IT MAY CONCERN:

Notification is hereby given that **I/WE** \_\_\_\_\_  
(hereinafter "OWNER"), have granted \_\_\_\_\_ (hereinafter "permittee") permission,  
except as restricted below, to be on any and all property that I/WE own in Wetzel County, WV. This permission extends to  
permittee's associates and agents who may accompany them as they deem appropriate.

The permittee is requested to observe, monitor and document, in as much detail as possible, any illegal hunting, unapproved  
firewood or timber cutting, illegal dumping, vandalism, or unauthorized trespass. Permittee shall document all environmental  
impacts such as spills, air pollution, land slips, and all actions by other persons and to report to OWNER on such activities.  
They are permitted to take air and water samples, still photographs and record audio and video, and make or take other  
records or information, provided that, upon OWNER'S request, permittee must provide copies of any test results and copies  
of photos and recordings for OWNER'S unrestricted use.

This permission does NOT include access to any buildings, barns, sheds, or dwellings. All access gates that have been  
installed by OWNER must be kept open or closed, locked or unlocked, as OWNER directs. This agreement will be in effect  
until modified or revoked, which may unilaterally be done by OWNER AT ANY TIME, FOR ANY REASON, by written  
notification given at the provided address. By having granted this permission, OWNER does not extend any assurance that  
the premises are safe for any purpose; does not confer upon any such visitor a duty of care; nor does OWNER assume any  
responsibility for, or incur liability for, any injury to property or person caused by any act or omission of such persons.

SIGNED \_\_\_\_\_ Effective DATE \_\_\_\_\_

## Your Rights and Remedies When Stopped or Confronted for Photography

Updated November  
2006

### About this Guide

Confrontations that impair the constitutional right to make images are becoming more common. To fight the abuse of your right to free expression, you need to know your rights to take photographs and the remedies available if your rights are infringed.

### The General Rule

The general rule in the United States is that anyone may take photographs of whatever they want when they are in a public place or places where they have permission to take photographs. Absent a specific legal prohibition such as a statute or ordinance, you are legally entitled to take photographs. Examples of places that are traditionally considered public are streets, sidewalks, and public parks.

Property owners may legally prohibit photography on their premises but have no right to prohibit others from photographing their property from other locations. Whether you need permission from property own-

ers to take photographs while on their premises depends on the circumstances. In most places, you may reasonably assume that taking photographs is allowed and that you do not need explicit permission. However, this is a judgment call and you should request this permission when the circumstances suggest that the owner is likely to object. In any case, when a property owner tells you not to take photographs while on the premises, you are legally obligated to honor the request.

### Some Exceptions to the Rule

There are some exceptions to the general rule. A significant one is that commanders of military installations can prohibit photographs of specific areas when they deem it necessary to protect national security. The U.S. Department of Energy can also prohibit photography of designated nuclear facilities although the publicly visible areas of nuclear facilities are usually not designated as such.

Members of the public have a very limited scope of privacy rights when they are in public places. Basically, anyone can be photographed without their consent except when they have secluded themselves in places where they have a reasonable expectation of privacy such as dressing rooms, restrooms, medical facilities, and inside their homes.

### Permissible Subjects

Despite misconceptions to the contrary, the following subjects can almost always be photographed lawfully from public places:

accident and fire scenes  
children  
celebrities  
bridges and other infrastructure  
residential and commercial buildings  
industrial facilities and public utilities  
transportation facilities (e.g., airports)  
Superfund sites  
criminal activities  
law enforcement officers

### Who Is Likely to Violate Your Rights

Most confrontations are started by security guards and employees of organizations who fear photography. The most common reason given is security but often such persons have no articulated reason. Security is rarely a legitimate reason for restricting photography. Taking a photograph is not a terrorist act nor can a business legitimately assert that taking a photograph of a subject in public view infringes on its trade secrets.

On occasion, law enforcement officers may object to photography but most understand that people have the right to take photographs and do not interfere with photographers. They do have the right to keep you away from areas where you may impede their activities or endanger safety. However, they do not have the legal right to prohibit you from taking photographs from other locations.

### They Have Limited Rights to Bother, Question, or Detain You

Although anyone has the right to approach a person in a public place and ask questions, persistent and unwanted conduct done without a legitimate purpose is a crime in many states if it causes serious annoyance. You are under no obligation to explain the purpose of your photography nor do you have to disclose your identity except in states that require it upon request by a law enforcement officer.

If the conduct goes beyond mere questioning, all states have laws that make coercion and harassment criminal offenses. The specific elements vary among the states but in general it is unlawful for anyone to instill a fear that they may injure you, damage or take your property, or falsely accuse you of a crime just because you are taking photographs.

Private parties have very limited rights to detain you against your will and may be subject to criminal and civil charges should they attempt to do so. Although the laws in most

states authorize citizen's arrests, such authority is very narrow. In general, citizen's arrests can be made only for felonies or crimes committed in the person's presence. Failure to abide by these requirements usually means that the person is liable for a tort such as false imprisonment.

### They Have No Right to Confiscate Your Film

Sometimes agents acting for entities such as owners of industrial plants and shopping malls may ask you to hand over your film. Absent a court order, private parties have no right to confiscate your film. Taking your film directly or indirectly by threatening to use force or call a law enforcement agency can constitute criminal offenses such as theft and coercion. It can likewise constitute a civil tort such as conversion. Law enforcement officers may have the authority to seize film when making an arrest but otherwise must obtain a court order.

### Your Legal Remedies If Harassed

If someone has threatened, intimidated, or detained you because you were taking photographs, they may be liable for crimes such as kidnapping, coercion, and theft. In such cases, you should report them to the police.

You may also have civil remedies against such persons and their employers. The torts for which you may be entitled to compensation include assault, conversion, false imprisonment, and violation of your constitutional rights.

### Other Remedies If Harassed

If you are disinclined to take legal action, there are still things you can do that contribute to protecting the right to take photographs.

- (1) Call the local newspaper and see if they are interested in running a story. Many newspapers feel that civil liberties are worthy of serious coverage.
- (2) Write to or call the supervisor of the person involved, or the legal or

public relations department of the entity, and complain about the event.

- (3) Make the event publicly known on an Internet forum that deals with photography or civil rights issues.

### How to Handle Confrontations

Most confrontations can be defused by being courteous and respectful. If the party becomes pushy, combative, or unreasonably hostile, consider calling the police. Above all, use good judgment and don't allow an event to escalate into violence.

In the event you are threatened with detention or asked to surrender your film, asking the following questions can help ensure that you will have the evidence to enforce your legal rights:

1. What is the person's name?
2. Who is their employer?
3. Are you free to leave? If not, how do they intend to stop you if you decide to leave? What legal basis do they assert for the detention?
4. Likewise, if they demand your film, what legal basis do they assert for the confiscation?

### Disclaimer

This is a general education guide about the right to take photographs and is necessarily limited in scope. For more information about the laws that affect photography, I refer you to the second edition of my book, *Legal Handbook for Photographers* (Amherst Media, 2006).

This guide is not intended to be legal advice nor does it create an attorney-client relationship. Readers should seek the advice of a competent attorney when they need legal advice regarding a specific situation.
